September 30, 2010

Dear Rick,

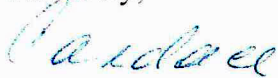

It was great to speak with you and catch up on what you are doing.

I enjoyed working with your firms 's members on legislation that would increase punishment for drivers who drive with a higher blood content. I have always appreciated the fact that you were the first person from the restaurant industry to come forward and help MADD on a number of mutually agreeable issues.

I'm so glad you're still engaged on the traffic safety issue and getting drunk drivers off the road. I hope the next time I'm in DC, or you're in Florida, we can get together.

I am always available for advice as you continue your campaigns to stop drunk and distracted drivers. It's so important that we stay focused on combating dangerous driving.

Sincerely,

Candace Lightner
